FREEDOM OF INFORMATION ACT 2000 - Ref: FOI/012063

With reference to your FOI request in connection with 'MDT' please see response below.

Does the Trust have any of the following Multi-disciplinary teams (MDTs)?

We would like to understand how the Trust deals with the treatment of Advanced Basal Cell Carcinoma, and therefore we would like to request any documents that are used to cover this treatment area e.g. Referral Pathways / Care Pathways / Prescribing Guidelines –

The Trust follows the British Association of dermatologists guidance and use prescribing guidelines from the British National Formulary for Aldara, Effudix and Eberidge (all BCC drugs)

MDT Name	Yes/No	If Yes please provide Members names and/or roles	
		Name	Role
Head and Neck MDT	Yes		Consultant ENT Surgeon
Local Skin Cancer MDT	Yes		Consultant Plastic Surgeon
Specialist Skin Cancer MDT	Yes		Consultant Plastic Surgeon
Oculoplastics MDT	No	N/A	N/A
Skull Base MDT	No	N/A	N/A

Any complicated BCC's are discussed at local and specialist MDT. For patients that have BCC where surgery is not appropriate we can offer radiotherapy. We do have pathways for BCC and use other topical treatments for smaller BCC's if the patient cannot have surgery dependant on the type of BCC.
