**FREEDOM OF INFORMATION ACT 2000 - Ref: FOI/012212**

With reference to your FOI request that was received in connection with 'Patients admitted for using Ritalin or Modafinil', please see response below.

How many patients have been admitted to hospital AND/OR required medical attention after taking:

i) Ritalin

ii) Modafinil

I would like the figures for:

2011

2012

2013

2014

2015 (so far)

Please include how many of these patients were under 18 (broken down by age).

The Trust's coding does not go down to level of drug that a patient has taken.

This information may be held within individual patients casenotes but casenotes are not accessible for the purpose of Freedom of Information requests so the Trust is unable to respond to your request.
