FREEDOM OF INFORMATION REQUEST FOI/012774 – Care Models Vanguard Project

Under the FOI Act, please send me the latest “value proposition” produced by the Dudley MCP vanguard.

For information: vanguard sites have been required to produce “value propositions” for national leaders. These set out how any additional funding to support the vanguard work will be spent, how much is needed, and what the return on investment would be. The most recent value propositions were submitted in early 2016.

The Trust does not hold this information, you will need to contact Dudley CCG who would be able help with this request.
