FREEDOM OF INFORMATION REQUEST FOI/012778 – Domiciliary visit

I would like to find out how I can register with the hospital and be able to support patients that are ready for discharge from hospital and in need of extra support with everyday life. looking forward to hear from you

We do not commission / provide domiciliary care services hence we do not register companies to provide domiciliary care. The responsible organisation for commissioning / provision of these types of services is the local authority
