FREEDOM OF INFORMATION REQUEST FOI/013017 – Paperless working environment

Becoming paperless has become a key factor in the way in which NHS Trusts must operate. This has an effect on tasks that health and care professionals encounter daily.

CareWorks, is currently delivering a new kind of information solution providing community nurses, mental health teams, social workers and therapists with the tools they need to work better together. Our work is delivering a single software solution that supports both health and social service's needs as well as delivering a paperless working environment for NHS Trusts.

As such, I would appreciate if you could provide us with answers to the questions below:
