FREEDOM OF INFORMATION REQUEST FOI/013102 – Student timetables

**You sent us Year 4 specialty medicine timetables.**

**In that timetable you refer to 'GUM clinics', however you did not provide the timetable for it. Apparently it should be fetched from 'Dr El-Dalil or Lisa Watkins'. You could find this reference by looking at 'SPR1 SPMA1 student 8' on the 2nd August.**

**Please provide a sample GUM clinic timetable, preferably for 'student 8', if not a representative timetable for any student on their year 4 specialty medicine timetable would suffice.**

**I am specifically requesting timetables as they are given to the students. In the same format as students receive them – not as a simplified excel document. I would imagine it would not take a student more than 18 hours to obtain their timetable for years 3 -5 of the course. If possible, please provide a representative timetable for one student from each year of the course.**

Normally we have 2 medical students attached to GUM in any week

We have HIV clinics Monday to Thursday am session

Example of time table for students:

Tuesday am session : HIV clinic

Tuesday pm session : GUM Clinic

Wednesday am session : GUM clinic and attending in the lab

Wednesday PM session : GUM clinic

Wednesday evening (optional): GUM clinic

Thursday am session: GUM clinic

Thursday pm session: GUM clinic
