FREEDOM OF INFORMATION REQUEST FOI/013244 – A&E dental complaints

Please could you tell me how many patients attended A&E in 2014/15 and 2015/16 for toothache or other dental complaints.

Please could tell me how many of these patients were treated and how many were referred elsewhere if this is recorded.

Please could tell me the average cost per patient visit

Accident and Emergency clinical coding does not allow the specific identification of 'toothache' or 'dental complaints' as the reason for ED attendance, therefore the Trust cannot answer this request.
