FREEDOM OF INFORMATION REQUEST 013447 – Zombie scenario

Given the potential of an Outbreak of apocalyptic levels which could result in A Catastrophic Zombie scenario, and that you as a front facing public service would be at risk. In fact due to the nature of the Outbreak NHS sites are likely to be ground zero. I wanted to know if you as an organisation had any Strategy or plan in place to prevent (or if unable to do so) at least contain the situation should it arise.

The Trust does not have a specific strategy for a zombie attack.

Please go to the Trust website to see information on emergency planning <http://dudleygroup.nhs.uk/aboutus/emergency-planning/>
