FREEDOM OF INFORMATION REQUEST FOI/013613 – Server farm/data centre

I would like to request the following information about Dudley Group NHS Foundation Trust. I would appreciate it if you could answer the following questions:

1. How many beds in total are managed by the trust - 900, this is all beds including inpatient, daycase, babycots etc
2. Does the trust have a server farm either on-site or off-site?
3. How many racks exist in that server farm/data center?
4. When is the last time that the data center/server farm was upgraded/refurbished?
5. When is the next scheduled data center/server farm refurbishment/upgrade?

Questions 2 to 5 - Exemption 43 has been applied given it is commercially sensitive in that providing the information may compromise information security
