Under that law the trustee have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under that law the trustee must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of the affairs of the charity and of the incoming resources and application of resources of the charity for that period. In preparing these financial statements, the trustee are required to:

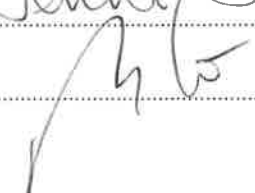

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgments and estimates that are reasonable and prudent
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and

Notes to the financial statements

1. Accounting Policies

(a) Basis of preparation

The financial statements have been prepared in accordance with The Charities (Accounts and Reports) Regulation 2008, Charities Act 2011 and the Financial Reporting Standards applicable in the UK and the Republic of Ireland (FRS102).

The major funds held in each of these categories are disclosed in notes 18 and 19.

The trustees consider that there are no material uncertainties about the Charity's ability to continue as a going concern. There are no material uncertainties affecting the current year's financial statements.

(b) Structure of funds

Restricted Funds are those where the donor has provided for the donation to be spent in furtherance of a specific charitable purpose or an appeal for funds where legal restrictions have been imposed by the donor.

Unrestricted funds comprise those funds which the Trustee is free to use for any purpose in furtherance of the charitable objects. The Trustees have set aside part of the unrestricted funds as designated funds to be used for a particular ward or specialty where the donor has specified.

The major funds held in each of these categories are disclosed in notes 17 and 18.

(c) Incoming resources

All incoming resources are recognised once the charity has entitlement to the resources, it is probable (more likely than not) that the resources will be received and the monetary value of incoming resources can be measured with sufficient reliability.

Individual donations are reviewed for Gift Aid application and duly claimed from H.M.R.C. Gift Aid income is accrued at the year-end if not claimed from H.M.R.C in the financial year.

(d) Incoming resources from legacies

Legacies are accounted for as incoming resources either upon receipt or where the receipt of the legacy is probable; this will be once confirmation has been received from the representatives of the estate(s) that probate has been granted, the executors have established that there are sufficient assets in the estate to pay the legacy and all conditions attached to the legacy have been fulfilled or are within the charity's control.

1. Accounting Policies (continued)

(e) Resources expended and irrecoverable VAT

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to each category of expense shown in the Statement of Financial Activities. Expenditure is recognised when the following Criteria are met:

There is a present legal or constructive obligation resulting from a past event.
It is more likely than not that a transfer of benefits (usually a cash payment) will be required in settlement.
The amount of the obligation can be measured or estimated reliably.

Irrecoverable VAT is charged against the category of resources expended for which it was incurred.

Grants are only made to related or third party NHS bodies and non NHS bodies in furtherance of the charitable objectives of the funds held on trust. Grant payments are recognised as expenditure when the conditions for their payment have been met or where there is a constructive obligation to make a payment.

The trustees have control over the amount and timing of grant payments and consequently where approval has been given by the trustees then a liability is recognised.

(f) Allocation of support costs

Support costs are those costs which do not relate to a single activity. These include staff costs, cost of administration, internal and external audit costs and IT support. Support costs have been apportioned between fundraising costs and charitable activities as a percentage of expenditure. The analysis of support costs and the bases of apportionment applied are shown in note 6.

(g) Charitable Activities

Costs of charitable activities include all costs incurred in the pursuit of the charitable objects of the charity. These costs include an apportionment of support costs costs, as shown in note 6, and are apportioned by average fund balance charged to the specific funds.

(h) Fixed asset investments

Investments are stated at market value at the balance sheet date. The Common Investment Fund Units are included in the balance sheet at the closing dealing price at 31 March 2017.

(i) Realised gains and losses

All gains and losses are taken to the Statement of Financial Activities as they arise. Realised gains and losses on investments are calculated as the difference between sales proceeds and the opening market value or purchase date if later. Unrealised gains and losses are calculated as the difference between the market value at the year end and opening market value or purchase date if later.

1. Accounting Policies (continued)

(j) Intangible assets

Intangible assets are non-monetary assets without physical substance which are capable of being sold separately from the rest of the Charity's business or which arise from contractual or other legal rights. They are recognised only where it is probable that future economic benefits will flow to, or service potential be provided to, the Charity and where the cost of the asset can be measured reliably.

Software

Software which is integral to the operation of hardware e.g. an operating system is capitalised as part of the relevant item of property, plant and equipment. Software which is not integral to the operation of hardware e.g. application software, is capitalised as an intangible asset. Purchased computer software licences are capitalised as intangible non-current assets where expenditure of at least £5,000 is incurred and amortised over the shorter of the term of the license and their useful lives.

Measurement

Intangible assets are recognised initially at cost, comprising all directly attributable costs needed to create, produce and prepare the asset to the point that it is capable of operating in the manner intended by management. Subsequently intangible assets are measured at fair value.

Amortisation

Intangible assets are amortised over their expected useful economic lives in a manner consistent with the consumption of economic or service delivery benefits.

<u>Asset Category</u>	<u>Useful Life (years)</u>

(k) Pooling Scheme

An official pooling scheme is operated for investments relating to all Umbrella and Special Charity Funds.

The scheme was registered with the Charity Commission on 7 April 1998.

(l) Cash Flow Statement

The Charity has prepared the financial statements under FRS 102 and provided a statement of cash flow.
