FREEDOM OF INFORMATION REQUEST FOI/013821 – Migraine

Would you able to state the number of patients with a diagnosis of chronic migraine treated in the last 12 months?

For the purposes of this diagnosis could be primary or tertiary and treated can be any medicine used ?

There is no ICD10 code for Chronic migraine, but if the patient was admitted to be treated for migraine then they would be coded with a Primary Diagnosis of ICD10 G43\* (Migraine)

During the year 01/12/2016-30/11/2017, there were 174 admissions with a primary diagnosis of G43
