FREEDOM OF INFORMATION REQUEST FOI/013885 - ePMA system for medicines management

1) Does your Trust already use an ePMA system for medicines management - Yes
What is the contract expiry date??

Existing ePMA contracts are due to expire in 2020 but will be replaced by the EPR ePMA solution currently being deployed. There will be no 'end' of contract for ePMA until 2027

1a) - If YES- is this part of an EPR system? - No
If so, what EPR do you use? - N/A

1b) -If YES -but the solution is not part of an EPR, (e.g. the Trust uses a stand-alone system) can you please indicate the name of the supplier and product?

Can you also detail the contract expiry date? -

Exemption 43 has been applied given it is commercially sensitive in that providing the information may compromise information security.

1c) -If NO- can you indicate if this is something you may consider procuring in the next 2 years???

No, the Trust will not be procuring an ePMA solution as this will be handled by the Trust wide EPR product once deployed.

1d) - If not- is there a reason why the Trust would not procure an ePMA (be this new or a replacement) see response to 1c

2) Could you please give me the name/ title and contact details of the Trust employee who is responsible for your ePMA &/or medicines management process? -

Mrs Rupvinder Kahlon, Associate Director of Medicines Optimisation – Head of Pharmacy
