

Patient Information

Administering Eye Drops

Introduction

This leaflet explains how to put drops into your eyes.

Instructions

- Wash your hands.
- Take the top off the bottle.
- Bend your head backwards or preferably lie flat and gently pull your lower eye lid down.
- Hold the dropper bottle vertically above one eye, this will help the drop come out of the bottle more easily.
- Squeeze one drop into the pocket formed by pulling down the lower eye lid (see figure 1). Try not to touch your eye, eye lashes or anything else with the dropper tip.

Figure 1 shows where you should put the eye drop

- Let go of the eye lid and continue leaning head backwards for a couple of minutes, this allows the drops to absorb properly. Your healthcare professional will show you how to do this.

- Wipe away any liquid that falls onto your cheek with a tissue.
- Repeat in the other eye if the drop is prescribed for both eyes.
- When two different eye drop preparations are used at the same time of day, wait for at least 10 minutes before putting the second preparation into the eye.
- This allows the first preparation to 'settle in' and not be washed out by the second one, if it is put in too quickly.

The Urgent Referral Clinic team at Russells Hall Hospital Eye Clinic on: **01384 456111 ext. 3633** (9am to 4.30pm, Monday to Friday)

If there is anything you do not understand, or you are concerned about any part of the treatment, or are worried, contact The Urgent Referral Clinic team.

Note

The information in this booklet is provided for information only. The information found is NOT a substitute for professional medical advice or care by a qualified doctor or other health care professional. **ALWAYS** check with your doctor if you have any concerns about your condition or treatment. This is only indicative and general information for the procedure. Individual experiences may vary and all the points may not apply to all patients at all times. Please discuss your individual circumstances with your eye doctor.

If you have any questions after reading this leaflet:

Please contact the Urgent Referral Clinic team at Russells Hall Hospital Eye Clinic on: **01384 456111 ext. 3633** (9am to 4.30pm, Monday to Friday).

Eye emergency, out of hours

In case of an eye emergency after the closing hours of the Eye Clinic at Russells Hall (including weekends and bank holidays), please contact:

Birmingham Eye Centre on 0121 507 6780

The doctor on call is usually based at the Eye Centre, City Hospital, Dudley Road, Birmingham. They may need to call you back, and if necessary, they will arrange for you to visit them.
