FREEDOM OF INFORMATION REQUEST FOI/014062 - Loss of income due to cancelled operations

Please could you provide me with your trust's loss of income as a result of the cancelled elective or non-urgent surgeries this year? I understand that there are tariffs assigned for every procedure undertaken and that cancelling an operation results in the loss of that revenue.

I would like this data on a monthly basis from January 2018 to the last date for which the data is held.

If you have comparative data for Jan-Dec 2017 (on the monthly basis also), I would also like this. If there is any breakdown of this data (for example, tariffs lost, cost of surgeons not working and so on), could you provide that too?

The Trust has no reliable way of estimating costs, each procedure does have a tariff but this tariff is unknown until the spell has fully ended and is properly coded.

Information on dna's/cancellations is published on behalf of the Trust in the public domain by NHS Digital
