FREEDOM OF INFORMATION REQUEST FOI/014111 - Health of Looked after Children Team (HELAC)

The Trust does not do health assessments for adults we think this is done by the GP's.

Forms are sent to the Trust's Consultant Paediatrician who is medical adviser for the adoption panel to advise on health of applicants. Medical examinations for children are done by paediatricians for LAC and pre-adoption.

As advised by NHS England, CCG will no longer pay the fees for medicals for adults and pre-adoption medicals and this responsibility has been passed on to Local Authority.
