FREEDOM OF INFORMATION REQUEST FOI/014126 – Inpatients aged over 65

I was wondering if you could help me do this by letting me know what percentage of inpatients were 65 years old and above between 1st January 2017 and 31st December 2017 at RHH?

Also If you have an average length of stay of this category of patient this would be greatly appreciated.

Percentage of inpatients 65 years old and above from Jan-Dec 2017 - 40%

Average LOS of inpatients 65 years and above from Jan-Dec 2017 - 6 days
