FREEDOM OF INFORMATION REQUEST FOI/014616 – Knife crime

1. How many people have been treated for serious knife injuries (those which require stitches or worse)?
2. How many people have been treated for life threatening knife injuries?
3. How many people have been treated for multiple knife injuries in the same attack?
4. How many people have been treated for gun/ bullet injuries?

ED information is not granular enough to answer the questions above.

Please see below figures for patients who 'presented' in A&E with knife and gun wounds.

Due to the low numbers for bullet injuries the Trust has grouped the numbers together.

Gun injuries - total for the years requested 10

Knife assault - 2016 = 22, 2017 = 33, 2018 = 27
