

THE DUDLEY GROUP NHS FOUNDATION TRUST

A. RESULTS AGAINST OUR LOCAL QUALITY PRIORITY TARGETS 2018/19.

Quality Priority	2014/15	2015/16	2016/17	2017/18	2018/19
Patient experience Ensure that the percentage of patients who report positively on their experience is better than the national average. Ensure pain control measures improve.	Hospital: ☹️ Partially achieved	Hospital: ☹️ Partially achieved	Hospital: ☹️ Partially achieved	Hospital: ☹️ Partially achieved	Hospital: ☹️ Partially achieved
	Community: ☹️ Partially achieved	Community: ☹️ Partially achieved	Community: ☹️ Partially achieved	Community: ☹️ Partially achieved	Community: ☹️ Partially achieved
Pressure ulcers Reduce the occurrence of avoidable pressure ulcers.	Hospital: ☹️ Partially achieved	Hospital: 😊 Achieved	Hospital: ☹️ Partially achieved	Hospital: 😊 Partially achieved	Hospital: 😊 Partially achieved
	Community: ☹️ Partially achieved	Community: ☹️ Not achieved	Community: ☹️ Partially achieved	Community: ☹️ Not achieved	Community: 😊 Achieved
Infection control Reduce our MRSA rate in line with national and local priorities. Reduce our Clostridium difficile rate in line with local and national priorities.	😊 Achieved	☹️ Not achieved	😊 Achieved	😊 Achieved	☹️ Not achieved
	😊 Achieved	😊 Achieved	😊 Achieved	😊 Achieved	😊 Achieved
Nutrition Ensure there are effective processes in place for nutrition care.	☹️ Partially achieved	☹️ Partially achieved	☹️ Partially achieved	☹️ Partially achieved	☹️ Partially achieved
	😊 Achieved				
Hydration Ensure there are effective processes in place for hydration care.	😊 Achieved				
Medications Ensure effective processes are in place for medicine administration.	N/A	N/A	☹️ Not achieved	☹️ Not achieved	☹️ Not achieved
Discharge Management Ensure effective discharge planning systems are in place					☹️ Partially achieved
Incident Management Ensure there is a positive learning culture					☹️ Partially Achieved

B. RESULTS AGAINST NATIONAL QUALITY TARGETS SET BY NHS IMPROVEMENT

National targets and regulatory requirements	Trust 2015/16	Trust 2016/17	Trust 2017/18	Target 2018/19	National 2018/19*	Trust 2018/19	Target Achieved?
Maximum time of 18 weeks from point of referral to treatment (RTT) in aggregate – patients on an incomplete pathway	95.06%	95.43%	94.0%	92%	+	93.64%	😊
A&E: maximum waiting time of 4 hours from arrival to admission, transfer, discharge	98.18%	94.16%	86.56%	95%	88%	83.96%	☹️
All cancers: 62 day wait for first treatment from urgent GP referral for suspected cancer	84.3%	85.3%	86.3%	85%	79.1%	82.9%	☹️
All cancers: 62 day wait for first treatment from NHS Cancer Screening Service referral	96.2%	98.2%	98.3%	90%	88.1%	98.1%	😊
Maximum 6 week wait for diagnostic procedures	98.97%	97.41%	97.86%	99%	97.3%	98.82%	☹️
Venous Thrombolism (VTE) Risk Assessment	95.96%	94.75%	93.38%	95%	95.6%	94.89%	☹️

KEY: ACHIEVED = 😊

PARTIALLY ACHIEVED = ☹️

DID NOT ACHIEVE = ☹️
