Re: Section 1 students

Different students are looked after in different departments within the Trust

The Trust does not take students based on the categories asked for apart from Paeds and O & G.

We do not take Medical students on Psychiatry placements in this hospital

These are the numbers of Medical students that we took for 2017/18. The numbers go up and down slightly each year.

MEDICAL STUDENTS	Numbers of students over a year	
Core Clinical – covers medicine and surgery	101	3 rd Year
Medicine	50	4 th Year
Surgery	44	4 th Year
Acutely Ill Patient	39	5 th Year
Assistantships	25	5 th Year
Student Selected Career Experience	38	5 th Year
O & G	29	5 th Year
Paeds	27	5 th Year

Allied Health Professionals - in the past year there have been a total of 234 students across the Allied Health Professionals.

Student placements can be across Medicine and Surgery, with a limited number of Radiography/Sonography placements in Obstetrics/Gynaecology but unfortunately we do not have a breakdown.

Paediatric and mental health placements are not offered with respect to AHPs.
