FREEDOM OF INFORMATION REQUEST FOI/014412 – Windows 10

I'd like to submit a few FOI questions:

Windows 10 is being mandated by NHS Digital. How are you hoping to accelerate migration - Internal project has commenced for migration to Windows 10

How long have you set aside/planned for Windows 10 migration and when will you initiate this? - Project has started with anticipated completion Q4 2019

Will audit your software estate to prepare for Windows 10 migration, and to ensure interoperability of systems and software across your trust, or both? - Audit is in progress with defined project Workstream for compatibility and interoperability of systems and applications
