FREEDOM OF INFORMATION REQUEST 014516 – Eating disorders

I would like to request any DoH policies, standard operating procedures and other procedural documents (including copies of care pathways) in relation to the medical management of patients with an Eating Disorder/Anorexia. I have looked on the DoH internet page and have been unsuccessful in finding this information on the internet in the general domain.

The Trust is not a treatment centre for eating disorders (anorexia etc), patients can be admitted with an eating disorder but the Trust would stabilise the patient and refer them on.

The nearest acute treatment centre is Dudley & Walsall Mental Health Trust, Bushey Fields Hospital
