FREEDOM OF INFORMATION REQUEST 014788 - Unlicensed systemic anticancer therapy (SCAT)

I would like to request information about the availability of unlicensed systemic anticancer therapy (SCAT) being offered at your hospital, outside a clinical trial, for the treatment of acute myeloid leukaemia or acute lymphoblastic leukaemia (referred as "indications" below) between April 2017 and April 2019.

Question 1

Does your hospital offered any unlicensed SCATs for these indications that was provided by drug company via a free-of-charge scheme, managed access scheme or patient access scheme that was not commissioned or reimbursed by NHS England. - **NONE**

Question 2

Which drugs were involved in these schemes? If not able to provide name, please state total number. - **0**

Question 3

How many patient received treatment under these schemes? - **0**

Question 4

Please provide your local procedure/policy for access to unlicensed SCAT that is not commissioned or reimbursed by NHS England. Who is responsible for approval of these requests in your organisation?
- **This information is contained within the unlicensed medicines policy, for a copy of the policy please contact dgft.foi@nhs.net quoting reference number 014788**

Question 5

Please provide your local pharmacy procedure/policy for quality control or quality reassurance of these unlicensed medications when they are delivered to hospital. - **This information is contained within the procurement for safety policy, for a copy of the policy please contact dgft.foi@nhs.net quoting reference number 014788**
