27/4/18

One of my goals is to collect information about the market of biopsy and coaxial (guiding) needles, especially for soft tissues (breast, liver, kidney, lung, etc.).

- 1 - References: size (length, diameter) and type (manual, semi-automated, automated) of the different biopsy needles used
- 2 - Quantities of biopsy needles annually purchased for every reference
- 3 - References: size (length, diameter) of the different coaxial needles used
- 4 - Quantities of coaxial needles annually purchased for every reference
- 5 - Quantities provided by each needle manufacturer
- 6 - Prices for every different needle, both biopsy and coaxial

Please find below a table showing the usage of biopsy and coaxial needles for the period 01.04.17 to 31.03.18 for the companies listed in your e-mail. We have not included any information on pricing because this will be classed as confidential information between the Trust and supplier.
