FREEDOM OF INFORMATION REQUEST FOI/012406 -

Charges levied against foreign nationals for treatment

A list of the 10 highest charges levied against foreign nationals for treatment on the NHS, which were a) levied in the financial year 2014-15, b) unpaid by the end of the financial year 2014/15, and c) remain totally or partially unpaid to date.

In each case I would like

Information has been provided from the Finance Department

a) A brief description of the treatment received

See Specialty column in the table below
Financial paperwork does not state specific treatment

b) The charge levied

See Charge Levied column in the table below

c) The amount repaid (if any)

See Amount paid column in the table below

d) The country of origin of the patient

See Country column in the table below

e) Whether the patient was male or female

See Sex column in the table below. Please note that the information held by the Finance Department does not hold the sex of the patient on the actual invoice. To find the sex of all of the patients would involve pulling the patient health records (which are exempt under the Data Protection Act 1998). Only the Maternity specialties can be categorised as Female for this response.

f) The broad age range of the patient (e.g. under 18, 18-30, 31-40, 41-50 etc)

Financial paperwork does not state specific ages

Country	Specialty	Sex	Charge Levied 14/15	Amount Paid 14/15	Unpaid at the end of 14/15	Unpaid at August 15
			£	£	£	£
France	Maternity	F	16,600	0	16,600	0
Pakistan	Trauma & Orthopaedic		7,856	0	7,856	0
China	End of life Care		6,862	0	0	0
Albania	Maternity	F	5,010	5,010	0	0
Pakistan	Stroke		4,158	3,500	658	0
Canada	Stroke		3,834	3,834	0	0
Pakistan	Gastro intestinal		3,555	0	3,555	0
Canada	Urology		3,755	3,755	0	0
Canada	Trauma & Orthopaedic		3,740	0	3,740	0
Pakistan	Gastro intestinal		3,518	0	3,518	0
