FREEDOM OF INFORMATION REQUEST 012463 – Autism Spectrum disorders and Aspergers

- What is the current average waiting time for children and adults who have been referred by their GP (or an alternative professional) for a full autism spectrum disorder assessment/diagnosis?

- In addition to providing an estimation of how long a patient will need to wait in order to begin the assessment process, I would also like to know how long the process is estimated to take.

- I would like this information to be broken down separately for adults and children. If possible, I would also like it to be broken down by asperger's and other autism spectrum disorders.

The Dudley Group NHS Foundtion Trust does not hold this information.

Please see the link below to the Dudley and Walsall Mental Health Trust website:

<http://www.dwmh.nhs.uk/adultautism-spectrum-disorder-asd-assessment-diagnosis/>

You may wish to send your request to them, please see their Freedom of Information page: <http://www.dwmh.nhs.uk/foi/>
