FREEDOM OF INFORMATION REQUEST 012596 – Diabetes

How many diabetes related amputations have there been over the last 5 years.

Please break down by calendar year, for:

2011  
2012  
2013  
2014  
2015

2. Of the diabetes related amputations above, how many of the patients were aged 25 or under? Please break down by years stated above.

3. How many diabetes related amputations were recorded in patients under 18, Again please break this down by the years stated above.

If possible, I would like this information (just for under 18's) broken down individually by age for the last five years. However, if this is not possible, please include the age of the youngest patient to have a diabetes related amputation at your Trust.

The Trust is unable to provide the information requested.

The Trust can provide information on amputations but we do not electronically record when an amputation is specifically diabetic related.
