FREEDOM OF INFORMATION REQUEST FOI/012788 - Junior Doctor's contract

Please release all strategic planning documents relating to junior doctors numbers, coverage and rostering for the period June-Sept 2016

'The Trust has been following the strategic planning documents distributed by NHS Employers for the implementation of the Junior Doctors in Training contract'.

Overall in your hospital, considering junior doctors to be anything from FY1 to ST8, please tell me:

1. How many junior doctors do you have within your trust and can you please provide a breakdown of grade and specialty =

specially -	
FY1	30
FY2	24
STR3+	66
STR L	49
STR GPVTS	26
Dental	4
Total	199

2. How many doctors do you currently have rostered to work each weekend = 61 doctors

3. How many doctors you will have working each weekend in August, when the new junior doctor contract is imposed = 61 doctors

4. What is the anticipated change in salary for a junior doctor in rotas where pay protection will not exist. E.g. the difference between average Fy1 pay August 2015-Jul 2016 vs August 2016-July 2017 Unknown. Awaiting information from new contract/NHS employers

Specifically for FY1 doctors please tell me:

1. How many FY1 doctors do you currently have rostered to work each weekend = 7

2. How many FY1 doctors you	will have working each weeken	d in August, when the ne	w junior doctor contract is
imposed = 7			

For each individual grade of doctor (FY1,SHO (FY2 to CT3 and trust grade SHO's), SpR/StR) in each of these specialties (Emergency Medicine/acute medicine/general surgery /Intensive Care/Anaesthetics/Obstetrics and Gynaecology/paediatrics) please tell me:

1. How many doctors do you currently have rostered to work each weekend

Anesthetics/ITU/Obstetrics	STR +STR3	= 9
Emergency Medicine	STR+3	= 2
Obstetrics/Gynaecolgoy	STR+3 FY2/STR 1&2	= 3 = 2
Paediatrics	STR+3 FY2 STR 1&2	= 2 = 3
Acute Medicine/Gen Medicine	STR+3 FY2/CT/STR1 FY1	= 4 = 6 =5
General Surgery	STR3 FY2/CT/STR1	=1 =2

2. How many doctors you will have working each weekend in August, when the new junior doctor contract is imposed = predicted 61

For each individual grade of doctor (SHO (FY2-CT3 and trust grade SHO's), SpR/StR) how many more doctors will you need to employ to ensure full rotas in Emergency Medicine, Anaesthetics, Intensive Care and Paediatrics?

Rotas to be remodelled against new contract when confirmed.
