FREEDOM OF INFORMATION REQUEST FOI/012812 – Pharmacy

I'm currently benchmarking how we provide pharmacist services against other Trusts nationally. Our current model is that some of our rotational pharmacists employed directly by NUH work in Trust Pharmacy (our outpatients dispensary) and we invoice Trust Pharmacy accordingly so we are trying to gauge if this arrangement exists elsewhere. Could you tell me if you have a similar arrangement whereby you employ or outsource any work to NHS employed pharmacists and if so the breakdown of how many hours per annum, by band?

No, we do not outsource any work to NHS employed pharmacists, we do employ NHS pharmacists but they solely work for the Trust.
