FREEDOM OF INFORMATION REQUEST FOI/013919 – Eating disorders

1. Within your Trust how many patients have you treated with any variant of Eating Disorder in the year 2016/17?  
(Please state whether patients were treated as an inpatient, outpatient or non-elective).

Outpatient attendances are not routinely coded so the Trust cannot say why a patient attended, therefore we can only answer for admissions.

During 2016/17 there were some non-elective inpatient admissions where the Primary diagnosis was ICD10 F50\* - see below for number

2. In the year 2016/17 how many patients did you treat with the following conditions:

a) Anorexia Nervosa? During 2016/17 - there were some non-elective inpatient admissions where the Primary diagnosis was ICD10F50.0 - see response below

b) Bulimia Nervosa? During 2016/17 - there were 0 non-elective inpatient admissions where the Primary diagnosis was ICD10 F50.2

c) Binge Eating Disorder? - There is no specific ICD10 code covering "Binge Eating Disorder"

d) Eating Disorder Not Otherwise Specified (EDNOS)/Other Specified Feeding or Eating Disorder (OSFED)? - During 2016/17 there were some non-elective inpatient admissions where the Primary diagnosis was ICD10 F50.8 or F50.9 – see response below

Due to the low numbers during 2016/17 and to avoid the possibility of patients potentially being identified the Trust is grouping the together the numbers for question 1 and question 2a and d - total 16
