Raising a concern or complaint

We will do everything we can to make sure that you receive the best standards of care. However, sometimes we may not achieve this and your expectations may not be met. If this happens, we will do our best to put things right and learn from your concern or complaint to improve our service to others.

Who do I speak to?

Where possible, please speak to the person in charge of the ward or department providing your care, as they may be able to sort out your concerns straight away.

Alternatively, you can also contact the Patient Advice and Liaison Service (PALS) to help you.

The PALS team works in partnership with our patients and staff and is committed to providing impartial and confidential advice to support patients, their families and carers.

PALS can:

- Listen to your compliments, concerns, queries and suggestions
- Help resolve problems on your behalf
- Provide information about the NHS complaints procedure and how to get independent help
