

Freedom of Information request 014415

5/11/18

I am currently embarking on a research project around Cyber Security and was hoping you could provide me with some contract information relating to following information:

The Trust has answered questions, 5, 6 and 7.

“Cyber Security is treated as a serious threat for the organisation in today’s climate of Cyber Events worldwide and in the UK and therefore awareness of Cyber Security Assurance is visible at Board level. “

Exemption 43 (2) – The Trust considers information relating to potential investment or vulnerability in cyber security commercially sensitive. The public interest test set out in section 2(2)(b) supports application of exemption 43 (2) given there is a greater public interest in maintaining the exemption 43 (2) outweighing the public interest in disclosure to ensure the Trust is not targeted by cyber criminals.

1. Standard Firewall (Network) - Firewall service protects your corporate Network from unauthorised access and other Internet security threats
2. Anti-virus Software Application - Anti-virus software is a program or set of programs that are designed to prevent, search for, detect, and remove software viruses, and other malicious software like worms, trojans, adware, and more.
3. Microsoft Enterprise Agreement - is a volume licensing package offered by Microsoft.

The information I require is around the procurement side and we do not require any specifics (serial numbers, models, location) that could bring threat/harm to the organisation.

For each of the different types of cyber security services can you please provide me with:

1. Who is the existing supplier for this contract?
