FREEDOM OF INFORMATION REQUEST FOI/014391 – Online learning systems

1. Is your organisation currently using an e-learning / online learning management system?

The Trust uses the national e-Learning for Healthcare (e-LfH) system for some of our staff training requirements.

Other individual subjects are internal e-Learning and developed in-house.

2. If yes, who provides the system and who supplies the system?

e-Learning for Healthcare (e-LfH) is a national system for health and social care and is managed and provided by the organisation as a whole. Other individual subjects are developed in-house with existing systems.

3. When does the current contract come to an end?

Not applicable. e-Learning for Healthcare (e-LfH) has not made users aware of any discontinuation plans. Other individual subjects are developed in-house and are not via a commercial contract.
