FREEDOM OF INFORMATION REQUEST 014476 -   endoscopy department

I'm contacting you because I have the following question for your Endoscopy department:

What software system is your Endoscopy department using (for planning of operations in terms of patient and staff availability) ?

Russells Hall Hospital has a bespoke scheduling system within endoscopy to manage list booking around staff and patient availability.

In addition the Unisoft GI reporting tool is used for recording the endoscopy reports and auditing outcomes
