

Freedom of Information request 015420

23/10/20

What is the most recent figure for the average waiting time for treatment following a prostate cancer diagnosis?

Please specify when this was for (i.e. end of August 2020).

If possible, can answers be broken down into cancer stages?

I would also like to know the average waiting times for treatment following a prostate cancer diagnosis for 2019, 2018, 2017, 2016 and 2015.

Again, if possible can answers be broken down into cancer stages?

How many men were diagnosed with prostate cancer in your trust over the past 12 months?

Please could I have this in a month to month breakdown?

For the past five years running, how many men each year have been diagnosed with prostate cancer?

A monthly breakdown of diagnoses from 2015 up to 2020 would be greatly appreciated.

As per NHS Digital rules the Trust does not publish numbers lower than 5 as this could lead to the identification of persons involved.

Wait in days from Decision to treat (DTT) to First Definitive Treatment. Wait is unadjusted

Patients treated with first definitive treatment for new primary cancer

Patients treated at Dudley Group Hospitals

Patients diagnosed with Malignant neoplasm of prostate

Wait in days from Decision to treat (DTT) to First Definitive Treatment. Wait is unadjusted

Wait for August 2020
