FREEDOM OF INFORMATION REQUEST 015007 – Longest and average waiting times

Can you tell me the longest and average waiting list in weeks from a GP referral and how many people are on the list. I understand this will be a snapshot so the data as logged on the day requested will suffice.

- The Trust is required to provide information regarding Referral to Treatment (RTT) waiting times. This information is published on the NHS England website:

<https://www.england.nhs.uk/statistics/statistical-work-areas/rtt-waiting-times/rtt-data-2019-20/>.

Once on the website, the file to be selected is “Incomplete Provider MMY”. It contains a table of the waits, with a median & 92<sup>nd</sup> percentile wait.

The last published figures are for June 19, which would be based on a snapshot at the end of the month. These figures are required to include all referrals, not just GP referrals, to a consultant-led service awaiting first treatment.
