FREEDOM OF INFORMATION REQUEST FOI/015517 – Covid

Can you answer in full and provide the true facts and statistics to the following questions for the Dudley Group please:

- 1) How many patients have tested positive for C19 but required no treatment for it? -
- 2) How many patients tested positive after having a mandatory test but were attending due to something completely unrelated? -
- 3) How many positive people were re tested while still attending a setting but not receiving any treatment for C19? -
- 4) How many people have tested positive, received treatment and were discharged from a setting?
- 5) How many people died of causes unrelated to C19 but because they tested positive in a setting were recorded as C19?

The information is not recorded electronically, an individual case note analysis would be needed and this would be exempt as it would exceed the appropriate cost limit as specified in Section 12. In addition the Trust is also applying section 14 (1) oppressive burden on the authority.
