For each month from April 2020 to March 2021:

1. A) The number of deaths of patients at the trust who had been diagnosed with covid-19, and where the diagnosis had been made between 15 days or more after hospital admission. Please include instances only where the patient's death occurred while they were inpatients at the trust.

B) The number of deaths of patients of the trust who had been diagnosed with covid-19, and where the diagnosis had been made 8 days or more after hospital admission. Please include instances only where the patient's death occurred while they were inpatients at the trust.

- **See table below**

2. A) The number of deaths of patients at the trust where covid-19 was given as a cause of death, and where the patient had been diagnosed with covid 15 days or more after hospital admission. Please include instances only where the patient's death occurred while they were inpatients at the trust.

B) The number of deaths of patients at the trust where covid-19 was given as a cause of death, and where the patient had been diagnosed with covid 8 days or more after hospital admission. Please include instances only where the patient's death occurred while they were inpatients at the trust.

Covid only' deaths - the Trust does not hold/record this information centrally in a reportable format. **An individual case note analysis would be needed and this would be exempt as it would also exceed the appropriate cost limit as specified in Section 12. In addition the Trust is also applying section 14 (1) oppressive burden on the authority**
