

Freedom of information request 016001

18/1/2022

I would be grateful to know how many women have had NHS care for ruptured ectopic pregnancies for each month since 1st January 2018 please.

See below for data on ruptured ectopic pregnancies between Jan 2018 - November 2021.

Data has been aggregated into quarters due to low numbers (to avoid identification of individual patients)

Date (Quarter)	Year			
	2018	2019	2020	2021
January - March	28	22	17	21
April - June	22	26	15	13
July - September	19	14	11	16
October - December	20	16	11	*22

*Figures do not include data from December 2021.

Caveats:

ICD10 codes used are below. We do not specifically code ruptured ectopic pregnancies; they are 'included' in all the codes below (see red highlight), so all codes are included

Ectopic pregnancy

Incl.:

ruptured ectopic pregnancy

Use additional code from category O08.-, if desired, to identify any associated complication.

Abdominal pregnancy

Excl.:

delivery of viable fetus in abdominal pregnancy (O83.3)

maternal care for viable fetus in abdominal pregnancy (O36.7)

1Tubal pregnancy

Fallopian pregnancy

Rupture of (fallopian) tube due to pregnancy

Tubal abortion

Ovarian pregnancy

Other ectopic pregnancy

Pregnancy:

cervical

cornual

intraligamentous

mural

Ectopic pregnancy, unspecified
