2. Stroke
3. Thrombosis or other blood clotting disorder.
4. Paralysis (partial or complete).
5. AIDS or other immunodeficiency disease.
6. Alzheimer’s disease
7. Prion disease
8. Creutzfeldt-Jakob disease
9. Miscarriage
10. Birth defect
11. Aplastic anaemia

Year	1. Heart attack, heart disease or other non-congenital heart complaint.	2. Stroke	3. Thrombosis or other blood clotting disorder.	4. Paralysis (partial or complete).	5. AIDS or other immunodeficiency disease	6. Alzheimer’s disease	7. Prion disease	8. Creutzfeldt-Jakob disease	9. Miscarriage	10. Birth defect	11. Aplastic anaemia
2017	2041	435	1225	29	16	7	0	0	357		24
2018	1956	438	982	32	16	12	0	0	376		17
2019	2287	427	1008	38	15	6	0	0	371	Ask too vague	19
2020	1936	450	995	25	10 in total	13	0	0	306		19
2021	2089	443	1205	27		15	0	0	238		25

- All these patients had each diagnosis in the primary position as a ‘new diagnosis’
 - ‘New diagnosis’ = patients who did not have a previous attendance with the same ICD10 code
 - ‘birth defect’ is too vague to run a report on
