

SMALL GRANTS FUN:~DING

Closing date
24th
November

As winter pressures rise, we know our communities are key to keeping people healthy and informed.

That's why Dudley Group NHS Foundation Trust has launched Small Grants Funding with the support of Dudley Group NHS Charity — a microgrant scheme offering up to £250 for local groups to run conversations and activities that help us understand how people make the choices of where and how to get the right care.

Your insight supports vulnerable residents, and builds stronger links between the NHS and local communities.

Who Can Apply

Community, voluntary, faith, or cultural groups with a bank account and the ability to manage funds can apply.

What the Funding Covers

Grants can be used for venue hire, refreshments, facilitator time, or materials to host community discussions about winter wellbeing and accessing care.
